Education

Chulalongkorn University, Computer Science

Bachelor of Science – Computer Science Major (GPAX: 3.03 / 4.00)

2017 – Present

(Expected: May 2021)

Work Experience

Frontend Developer (Intern) at Wongnai Media Co., Ltd.

Jun 2020 – Jul 2020

Internship at Wongnai Media, Yelp equivalent, largest restaurant reviews platform in Thailand.

Key responsibilities:

- **Wongnai Rewards** – Upgraded interfaces and functionality of a module that allows users to discover, redeem, and track rewards. Implemented using React and TypeScript. Operated unit testing using Jest; resulting in improved overall UX and performance.
- **User Dropdown Menu** – Implemented an all-new navigation menu (desktop and mobile), and migrated to the central repository; resulting in reduced 60% code redundancy in several projects (Wongnai, Wongnai Beauty, Delivery, Massage at Home).

Web Developer and Art Director (Part-time) at Soscity Space Co., Ltd.

May 2019 – Present

Recruited by a full-service digital agency in Thailand, THB 1 million in valuation.

Key responsibilities:

- **Web Development** – Design and develop websites using WordPress, including installation, configuration, and creation of custom templates and plugins. Worked closely with clients to collect requirements and ensure project quality.
- **Art Direction and Graphic Design** – Collaborate with clients to develop corporate identity materials and artwork for marketing initiatives. Conceived original designs and marketing concepts used in brochures, flyers, and online ads.

Selected case experiences:

- **COTTO** – Leading tiles and sanitary ware manufacturing company in South East Asia (THB 10 billion revenue) Designed and developed website optimized for digital signage, displayed in the ACT Forum exhibition (25k visitors); resulting in improved brand awareness. Worked successfully under a tight target deadline (1 week) and achieved positive feedback.

Undergraduate Projects

- **Senior Project: OCSC Learning Platform (2021)** – Develop an e-Learning platform (250k users) for the Office of the Civil Service Commission (OCSC) using TypeScript, React, Redux, Material-UI, .NET Core, and MariaDB.
- **Restaurant Website and Mobile App (2020)** – Developed full-stack website and mobile app using React, React Native, Bootstrap, NodeJS, MongoDB, and Firebase.
- **Cooking Recipes Search Engine (2020)** – Developed web app by using HTML, (S)CSS, JavaScript, and APIs with the applied concept of model-view-controller and prototype-based programming.
- **Chula Shuttle Bus Queueing App (2019)** – Collaborated with a team of 7 people to performed ideation, brainstorming, and wireframing. Created numerous mobile app prototypes of varying fidelity to test assumptions and concepts.
- **Airlines Reservation System (2018)** – Developed desktop app to manage flights reservation by using Java and object-oriented programming techniques.
