Lottie for Android, iOS, Web, React Native, and Windows

Lottie is a library for Android, iOS, Web, and Windows that parses Adobe After Effects animations exported as json with Bodymovin and renders them natively on mobile and on the web!

For the first time, designers can create and ship beautiful animations without an engineer painstakingly recreating it by hand. They say a picture is worth 1,000 words so here you go:

The above animation was created in After Effects, and can be rendered natively across all platforms with a simple json file.

Sponsors

Lottie is made possible because of our supporters on GitHub Sponsors and Open Collective. To learn more, please check out our sponsorship page.

We would especially like to thank our sponsorships from
