Work Experience

Art Director & Graphic Designer / Soscity.Space

MAY 2019 – PRESENT, BANGKOK

Managed a variety of visual elements designs (graphics, brand identity, design guidelines) and website development projects for clients such as COTTO, MedTravel Portal, The Portrait, JISO Travel, and HIVE.

Freelance Graphic Designer / Bellmcp.Work

OCT 2017 – PRESENT, BANGKOK

Provided design services and managed a wide variety of projects involving graphic design and video editing for clients, which mainly are campus departments such as CU Zero Waste and ASEAN Studies Center.

Projects

FISSIX — Physics Mobile Application (National Software Contest 2014)
Designed UI and prototype for a mobile application that provides vital concepts, equations, and formulas of physics.

CU PopQ — CU Shuttle Bus Queue Management System
Designed UI and prototype for a mobile application that helps manage CU shuttle bus queueing lines.

Decibel Airlines Reservation System
Designed and developed a Java application to manage flights reservation using object-oriented programming techniques.

Knight's Tour Solver
Designed and developed a Java application to solve the knight's tour problem using Warnsdorff's rule algorithm.

4-Digit Calculator
Designed and developed a 4-Digit Calculator with essential functions by implementing logic gates and 7-segment display.

Client Works

COTTO 'How Smart Are You?' Interactive website
Designed and developed an interactive personality test website optimized for digital signage in the COTTO exhibition.

CU Zero Waste — Green Office Campaign
Redesigned trash can stickers for CU Zero Waste campaign, which is going to be installed more than 10 buildings in the campus area.

The Portrait and HIVE Website
Designed and developed an informative website for The Portrait aesthetic hospital and HIVE cloud-based point-of-sale system.
